PROFESSIONAL EXPERIENCE

CS 2 CIS

Remote

Full Stack Developer - *React.js, Next.js, Express.js, Nest.js, PostgreSQL*

Jan 2023 - Apr 2026

- Developed a tournament registration platform with React, Express, and PostgreSQL, supporting over 200 teams and 1,000+ players through skill-based solo matchmaking and full-team sign ups.
- Built an admin dashboard with React, Nest.js, and PostgreSQL for 100+ administrators to track user statistics, log admin actions, manage leaves, and grant performance-based rewards.
- Created an admin support site in React, showcasing rules, penalty guidelines, tips, and examples, plus an advanced search feature with custom keywords for quick reference and onboarding.

Automation Engineer - *Discord.js, PostgreSQL, SQLite*

- Developed a Discord.js bot with PostgreSQL for user onboarding, role assignment, verification, and text/voice tickets, processing 8,000+ requests and onboarding 40,000+ users.
- Engineered a Discord.js bot to track admin activity, flag inactive admins, and reward top performers.

WEB STUDIO DIMADIM

Remote

Full Stack Web Developer - *React.js, Node.js, CMS, SQLite*

May 2021- Jan 2023

- Produced a range of websites using React, Node.js, and various CMS tools, covering landing pages, entertainment apps, and business presentations, delivering around 30 tailored solutions.
- Optimized client projects by improving SEO (by an average of 60%) and enhancing performance/load times (by an average of 40%).

INDEPENDENT

Remote

Independent Full Stack Developer - *Next.js, Swift, Fastify, PostgreSQL, Three.js*

March 2020 - May 2026

- Built and operated TechScreen, a SaaS for interview assistance that has grown to 10,000+ active users, with Stripe billing, AI-powered features, and a custom monitoring and alerting system.
- Developed Hoppin, a native iOS travel planning app with AI-generated itineraries, day-by-day trip plans, and interactive map visualization, built and published on the App Store.
- Designed and built MRR is land, a 3D data visualization that maps public startup MRR and growth metrics onto an interactive city where each building represents a startup's financial state.

EDUCATION

Southern New Hampshire University (SNHU)

Manchester, NH

B.S. in Computer Science
