Location: MA, USA (Willing to relocate)

Skills

JavaScript • TypeScript • Next.js • React • Vue.js • Node.js • NestJS • PHP

Work Experience

Bot / Web Developer

Dec 2024 – Jan 2025 • 1 mo

CS 2 CIS • Contract

Remote

Technologies: Discord.js • JavaScript • TypeScript • MongoDB • SQLite

Developed Discord bots and an admin website to enhance matchmaking, server management, and moderation.

Contributions:

- Matchmaking Bot: Integrated Steam & Faceit APIs to fetch player stats and recommend teammates.
- Admin Website: Built a dashboard with guides, server tools, and rule management.
- Moderation Bot: Tracked admin activity, rewarding engagement and flagging inactivity.

Frontend Developer

Aug 2022 – Oct 2024 • 2 yrs 2 mos

Unnamed Team • Full-time

Remote

Technologies: React • Next.js • TypeScript • Redux • JavaScript

Our team developed a diverse array of projects, from statistical services to entertainment applications

Responsibilities:

- Designed the structure and architecture of projects using React
- Developed responsive and functional frontend components
- Translated UI/UX designs from Figma to live applications
- Implemented RESTful APIs for seamless frontend-backend integration
- Collaborated effectively with product managers, designers, and backend developers

Full Stack Developer

Jun 2022 – Aug 2022 • 2 mos

CS:GO CIS • Contract

Remote

Technologies: React • Node.js • SQLite • MongoDB • RESTful API

The company is the largest in the CIS, specializing in providing tournaments and LFG systems for CS GO / CS 2 players

Responsibilities:

- Developed client-side and server-side components using React.js and Node.js Express
- Integrated third-party APIs such as Discord Auth for user authentication
- Designed UI/UX for the website catering to gamers
- Parsed and managed user account information, including gaming statistics and profile details

Full Stack Developer

Jan 2022 – Jul 2022 • 6 mos

Self Employed • Self-employed

Remote

Technologies: React • JavaScript • TypeScript • Node.js • PHP

Initially, I worked as an independent developer, taking on a variety of clients and projects that ranged from simple landing pages to comprehensive portfolio websites and application enhancements

Responsibilities:

- Independently managed client projects, from initial concept to deployment
- Developed landing pages, portfolio websites, and enhancements to existing applications
- Adapted and applied a range of technologies to meet diverse project requirements

Education
